About Me

I started working as a software developer 6 months ago. Since then I had experience with different web-technologies: React, Redux flow, react-routing, etc. as Frontend and Node.js/Express as Backend. Participance in development of full web-applications helped me in obtaining useful hard skills. Also, my predisposition for communication always helps me to develop my soft skills and relations with my colleagues.

Education

- 2018-2022

  Grodno State College of Engineering, Technologies & Design.

  Faculty of Information Technology

Experience

- Front-end (React) developer *instinctools **(6 months)**

  - Front-end developer & UI
  - Front-end & Back-end & business implementation, Unit testing, code review, estimating and planning.
  - JavaScript, React, Redux, Jest, Enzyme, Webpack, SCSS.

- Traine in *instinctools growth academy **(2 months)**

  - Front-end traine
  - Frontend developer & Backend developer & UI & business implementation
  - JavaScript, React, Redux, Jest, Enzyme, Node.js, Express, Mongoose

Skills

Programming Languages

- Java Script — `Exp`
- HTML — `Exp`
- CSS — `Exp`
- TypeScript — `Nov`

Programming Libraries/Frameworks

- React — `Adv`
- Redux — `Adv`
- Reselect — `Adv`
- Lodash — `Int`
- Intl — `Int`
- Moment.js — `Int`
- Material-UI — `Int`
- Google Maps — `Nov`
- Node JS — `Int`
- Express.js — `Int`
- Mongoose.js — `Int`
- SCSS — `Adv`

Web Technologies

- BEM — `Adv`

Automated testing

- Jest — `Int`
- Enzyme — `Int`
- React-testing-library — `Int`

Databases

- MySQL — `Int`
- MongoDB — `Int`

Building Tools

- Webpack — `Int`

Version Control Systems

- Git — `Adv`
- Github/Gitlab — `Adv`

IDE

- VSCode — `Adv`

`Exp` - Expert   `Adv` - Advanced   `Int` - Intermidiate   `Nov` - Novice
